

NBSS trains students for careers in traditional trades that use hand skills in concert with evolving technology. Our mission is to preserve and advance craft traditions while promoting a greater appreciation of craftsmanship.

For more than a century, our exceptional programs, master faculty, and inspiring community have helped students to achieve meaningful lives and careers. The School's 64,000-square-foot facility is located in Boston's historic North End, the community in which it was originally founded in 1881.

We offer nine full-time training programs to those seeking a career in traditional trades. A variety of short-term Community Education courses are also available.

The comprehensive Locksmithing & Security Technology program allows you to work in the field even as you develop critical skills.

LOCKSMITHING & SECURITY TECHNOLOGY

A good life, built by hand.

NBSS

In the half-day, nine-month program students study with an experienced locksmith in small classes. The program provides a firm grasp of the fundamentals and can enable you to do high-quality work after graduating.

You'll learn locksmithing through a combination of classroom theory, lectures, demonstrations, and hands-on benchwork, surveying, and installation. You'll graduate with the ability to service and repair all types of residential and commercial door-locking devices. You'll also be familiar with security technology such as electronic access control systems.

The program space includes individual benches for each student, a room for instruction and demonstration, a resource library, and all the major equipment and tools you would find in a locksmithing shop. Classes meet five days a week in the mornings, and during your second semester, you can work part-time while continuing to learn the trade in class.

FACULTY

Rick Hendricks LK '18 is a graduate of the Locksmithing & Security Technology program and worked at Boston Lock & Safe since 2017. Before attending NBSS, he was in the US Air Force as Ground Radio Maintenance Technician. He was then a Mental Health Technician in the US Air Force Reserves, while serving the civilian sector as a Personal Care Attendant.

“I was looking for an entry point to a sustainable job field that wouldn't involve sitting at a desk. North Bennet has a great reputation, and was convenient for me with a growing family.”

— Jonathan Nir LK '17, CA '18

CAREERS

Graduates of our Locksmithing & Security Technology program work for schools, security firms, small businesses, and on their own. They have a variety of career options, such as:

- Locksmith, safe technician, or safe repairer
- Automotive locksmith
- Institutional locksmith
- Commercial locksmith
- Maintenance mechanic
- Hardware consultant
- Access control technician

STUDENT SUPPORT & CAREER SERVICES

We provide a supportive and stimulating learning environment for those seeking a career in fine craftsmanship. Outside of the classroom, students have the opportunity to attend social events, career workshops, a business preparation course, and public lectures that enhance their hands-on instruction. Our alumni are also well-connected to the School, offering students both mentorship and employment opportunities.

ADMISSIONS & FINANCIAL AID

Our students are hard-working, patient, and determined to excel in a rigorous environment. They value fine craftsmanship and the satisfaction of learning a traditional trade. We welcome applications throughout the year, with the class start for Locksmithing & Security Technology occurring each February and September.

Financial aid, scholarships, and veterans benefits are available to qualified students. To learn more and apply, visit nbss.edu/financialaid.
