

Teen Craft & Trade Intensives

Join North Bennet Street School's Teen Craft & Trade Intensives during the February and April 2027 school breaks! Designed for high school sophomores, juniors, and seniors (ages 15-18), these week-long intensives offer an exciting introduction to hands-on trades and crafts in a supportive, small-class setting.

Students will have the opportunity to develop real-world skills, express their creativity, and meet new people—with rare access to professional tools, machinery, and the expertise of experienced craftspeople. These intensives are designed for students who want to explore career pathways in the skilled trades as well as those looking to grow new skills and create with their hands.

February & April Break 2027 Sessions

Monday, February 15 – Friday, February 19

Woodworking: Introduction to Furniture Making

Woodworking: Introduction to Turning & Carving

Monday, April 19 – Friday, April 23
