End of Life and Discontinuation Notice

QuickBooks Payroll support has been a trusted accounting solution for millions of small and medium-sized businesses. However, Intuit has officially announced that support for this version will be discontinued on May 31, 2026. This means that after this date, updates, payroll services, and customer support for this version will no longer be available. This discontinuation policy is important to understand so you can avoid business interruptions. For immediate guidance and assistance, call 1-888-370-0812 or 1-888-370-0812. Planning ahead is essential to ensure a smooth transition.

What Does the Discontinuation of QuickBooks Payroll Support Mean?

The discontinuation of QuickBooks Payroll support means:

- End of Automatic Updates – The software will no longer receive automatic software or security updates. This leaves your system vulnerable to new threats and compatibility issues.
- Payroll Services Termination – Payroll services, including tax table updates, will stop after this date. Without these updates, you may face compliance challenges.
- Customer Support Ends – Intuit support for this version will no longer be available. You will need to rely on other resources for assistance.
- Security Risks – Without updates, the software becomes more vulnerable to security threats. This puts your sensitive business and employee data at risk.

Businesses should start planning their upgrade strategy now to prevent interruptions. Experts recommend creating secure backups of all company files before the discontinuation date. Without upgrading, you may face issues like payroll mismatches, update failures, or file corruption. Taking action early will save you time and stress later.
